

Project Title:		<b>Online Course Delivery Development</b>			
Project Goal/ Expectation:		To optimize course delivery we will undertake further refinement of online courses after 100% conversion to virtual delivery achieved in current year. All core courses will have new updates based on lessons learned from the rapid adoption of online delivery in the current funding year.			
Activity	Anticipated Outputs	Inputs	Performance Measures	Outcomes Short term	Outcomes Longer term
Online course delivery optimization	Updates to content and delivery tools used for 8 OHS core courses, 4 Mental Health core courses and all Community Education programming	Funding CRM improvements Technology	Participant feedback from online courses  Statistics on increased online course registration  Focus groups at end of Yr 1 with past online course participants	Increased compatibility with demand for course delivery consistent with public health orders during ongoing pandemic response	To be determined
